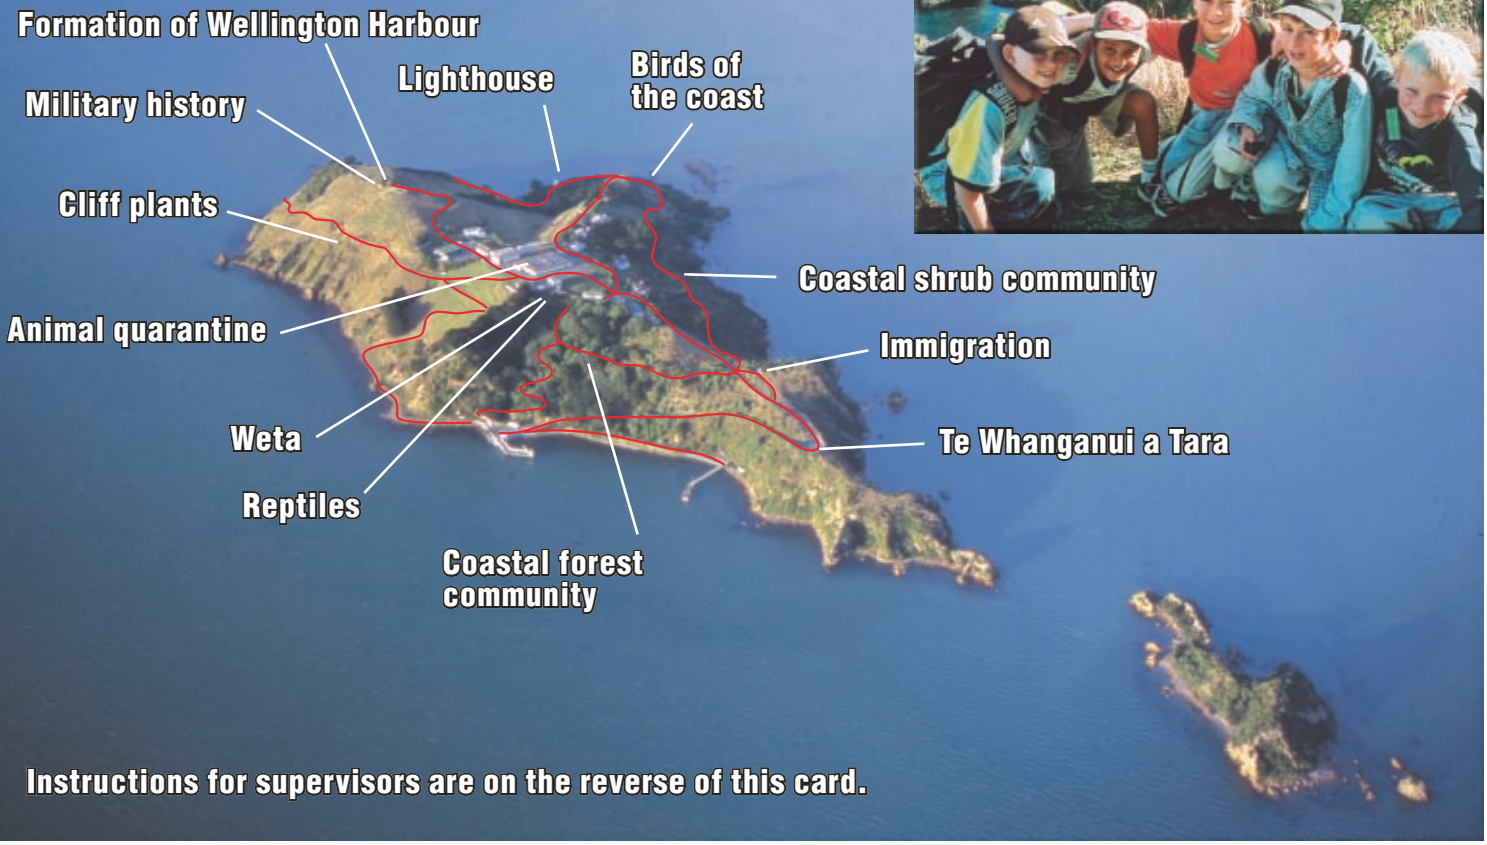
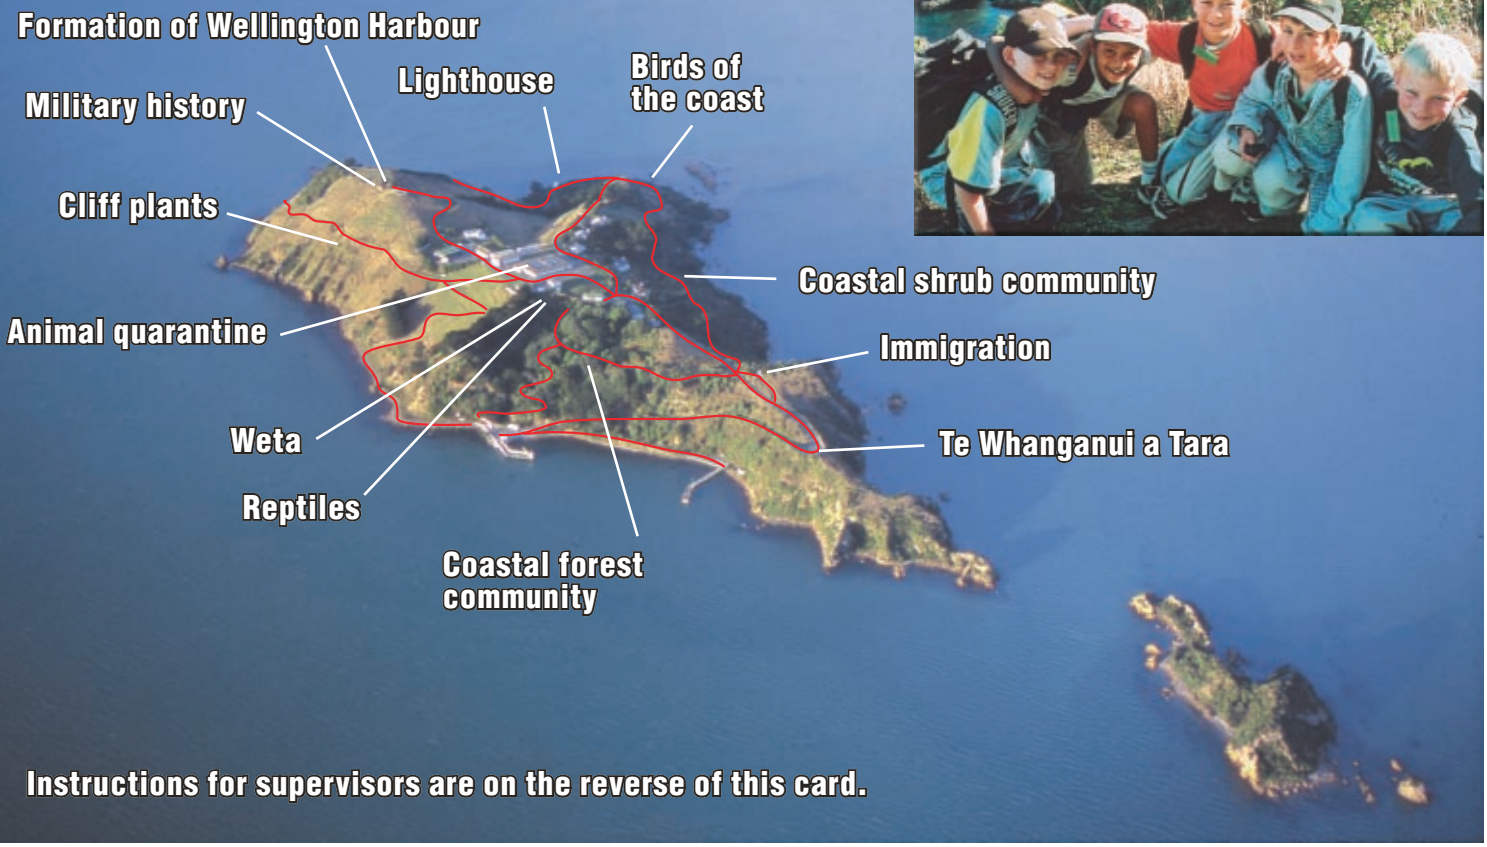
MATIU/SOMES ISLAND ACTIVITY KIT



Instructions for supervisors are on the reverse of this card.

MATIU/SOMES ISLAND ACTIVITY KIT



Instructions for supervisors are on the reverse of this card.

Activity kit

To the adult supervisor:

As you lead your group on an exploration of Matiu/Somes Island, please support their learning by encouraging students to absorb information through their eyes and ears, and store information for recording/sharing in the classroom.

It is not expected that students will cover all activities but the cards will provide ideas to explore some of the many learning opportunities on the island. The accompanying map will show you the appropriate places to use the cards.

Please enjoy using the material in this kit:
- 12 activity cards
- 1 bird caller
- 1 optic explorer (remind students not to look up to the sun with this)
- 1 set of bird bands
- 8 role-play cards

and check that the kit is *complete* before you return it to the teacher/ranger at the end of your visit.

The eight role-play badges are for students who have studied the role of people working *on* or *for* Matiu/somes Island prior to this visit.

Each student can:
- choose a badge to PIN on
- think about the different work that people do on/for Matiu/Somes Island
- look for examples of that work
- follow the instructions on their badge.

There are no rubbish bins on this island. Please take all your rubbish with you.
