

APPENDIX 1

Taxonomic list of aquatic invertebrates found at the 4 sampling sites on Tongariro River in December 1990. Chironomids were separated into taxa at sites TI, TP and TT.

+ = present, - = not recorded, * = not separated.

| | TG | TI | TP | TT |
|-----------------------------------|----|----|----|----|
| Ephemeroptera (mayflies) | | | | |
| <i>Deleatidium</i> spp. | + | + | + | + |
| <i>Austroclima jollayae</i> | + | + | + | - |
| <i>A. sepia</i> | - | + | + | + |
| <i>Acanthophlebia cruentata</i> | - | + | - | - |
| <i>Maiulus luma</i> | - | + | + | - |
| <i>Zephlebia ?spectabilis</i> | - | + | - | - |
| <i>Zephlebia</i> sp. | - | + | - | - |
| <i>Nesameletus</i> sp. | + | + | - | - |
| <i>Coloburiscus humeralis</i> | + | + | + | + |
| Plecoptera (stoneflies) | | | | |
| <i>Stenoperla ?maclellani</i> | + | + | - | - |
| <i>Austroperla cyrene</i> | + | + | + | - |
| <i>Megaleptoperla grandis</i> | + | + | + | + |
| <i>Zelandoperla decorata</i> | + | + | + | + |
| <i>Zelandoperla</i> sp. | + | + | + | - |
| <i>Zelandobius furcillatus</i> | + | + | + | + |
| <i>Acroperla trivacuata</i> | + | + | + | + |
| <i>A. spiniger</i> | - | - | + | - |
| <i>Halticoperla viridans</i> | + | + | - | - |
| <i>Spaniocerca zelandica</i> | + | - | - | - |
| <i>Spaniocerca</i> sp. | - | - | + | - |
| Trichoptera (caddisflies) | | | | |
| <i>Aoteapsyche colonica</i> | + | - | - | + |
| <i>A. ?tepoka</i> | + | + | + | + |
| <i>A. raruraru</i> | + | + | + | - |
| <i>Aoteapsyche</i> spp. | + | + | + | + |
| <i>Orthopsyche fimbriata</i> | - | - | - | + |
| <i>Oxyethira albiceps</i> | + | + | + | + |
| <i>Paroxyethira hendersoni</i> | + | - | - | - |
| <i>Psilochorema</i> sp. | + | + | + | + |
| <i>Costachorema ?callista</i> | + | + | + | + |
| <i>C. ?brachyptera</i> | + | + | + | - |
| <i>C. ?xanthoptera</i> | + | + | + | + |
| <i>C. ?psaroptera</i> | - | - | + | - |
| <i>Hydrobiosis parumbripennis</i> | + | + | + | + |
| <i>H. ?frater</i> | + | + | + | - |
| <i>H. ?harpidosa</i> | + | + | + | - |
| <i>H. ?spatulata</i> | + | - | + | - |
| <i>H. ?charadraea</i> | - | - | - | + |
| <i>H. ?clavigera</i> | - | - | - | + |

| Total no. of taxa¹ | 50 | 61 | 52 | 43 |
| No. of samples | 23 | 26 | 13 | 21 |

¹ does not include separate chironomid taxa.

APPENDIX 2

Densities (no. 0.1m^{-2}) of invertebrate larvae collected in replicate Surber samples from "slow" (mean velocity = 0.23 m.s^{-1}), "medium" (mean velocity = 0.59 m.s^{-1}) and "fast" (mean velocity = 1.15 m.s^{-1}) flowing water at TJ (see Fig. 1) in December 1992.

| "Slow" flowing water. | Sample # | 1 | 2 | 3 | 4 | 5 |
|-----------------------------------|----------|------|------|-----|------|-----|
| Ephemeroptera (mayflies) | | | | | | |
| <i>Deleatidium</i> spp. | | 4 | 11 | 17 | 3 | 11 |
| <i>Zephlebia</i> sp. | | - | 1 | 2 | - | 2 |
| <i>Coloburiscus humeralis</i> | | - | - | 2 | - | 11 |
| Plecoptera (stoneflies) | | | | | | |
| <i>Zelandobius furcillatus</i> | | - | - | 2 | - | 1 |
| Trichoptera (caddisflies) | | | | | | |
| <i>Aoteapsyche</i> spp. | | - | 4 | 6 | 1 | 19 |
| <i>Oxyethira albiceps</i> | | 3 | 5 | - | 40 | 36 |
| <i>Paroxyethira hendersoni</i> | | - | 1 | - | - | - |
| <i>Psilochorema</i> sp. | | - | - | - | - | 4 |
| "Other" Hydrobiosidae | | 9 | 10 | 6 | - | 8 |
| <i>Helicopsyche</i> sp. | | - | 1 | - | - | - |
| <i>Pycnocentroides</i> spp. | | 3 | 11 | 15 | 2 | 3 |
| <i>Olinga feredayi</i> | | - | - | 1 | - | - |
| <i>P. evecta</i> | | - | 1 | - | - | 1 |
| Coleoptera (beetles) | | | | | | |
| Elmidae | | 52 | 30 | 29 | 4 | 10 |
| Diptera (two-winged flies) | | | | | | |
| <i>Cricotopus</i> spp. | | 100 | 248 | 108 | 352 | 228 |
| <i>Eukiefferiella</i> sp. | | 60 | 86 | 70 | 70 | 78 |
| Orthocladiinae sp.a | | 264 | 206 | 212 | 436 | 472 |
| <i>Tanytarsus vespertinus</i> | | 1016 | 562 | 454 | 126 | 174 |
| <i>Maoridiamesa</i> sp. | | 116 | 324 | 382 | 794 | 703 |
| Chironomidae indet. | | 60 | 18 | 26 | 32 | 36 |
| Empididae sp. | | - | 3 | - | 12 | 20 |
| Muscidae sp. | | - | 2 | 2 | - | 1 |
| <i>Aphrophila neozelandica</i> | | 25 | 44 | 47 | 24 | 77 |
| Eriopterini sp. | | - | - | 1 | - | - |
| <i>Ephydrella</i> sp. | | - | - | 1 | - | - |
| Megaloptera (dobsonflies) | | | | | | |
| <i>Archichaulioides diversus</i> | | - | - | - | - | 8 |
| Oligochaeta (worms) | | 1276 | 1539 | 373 | 1203 | 481 |

| <i>Eukiefferiella</i> sp. | | 184 | 120 | 180 | 108 | 67 |
| Orthoclaadiinae sp.a | | 116 | 84 | 118 | 142 | 29 |
| <i>Tanytarsus vespertinus</i> | | 42 | 34 | 78 | 56 | 9 |
| <i>Maoridiamesa</i> sp. | | 860 | 830 | 1108 | 778 | 430 |
| Chironomidae indet. | | 44 | 12 | 2 | 20 | 20 |
| Empididae sp. | | - | - | 2 | 1 | 1 |
| Muscidae sp. | | 5 | 1 | 1 | - | 1 |
| <i>Aphrophila neozelandica</i> | | 42 | 49 | 69 | 47 | 42 |
| <i>Austrosimulium</i> sp. | | 1 | - | - | - | - |
| Megaloptera (dobsonflies) | | | | | | |
| <i>Archichaulioides diversus</i> | | - | 3 | - | - | 1 |
| Oligochaeta (worms) | | 443 | 159 | 324 | 157 | 117 |

APPENDIX 3A

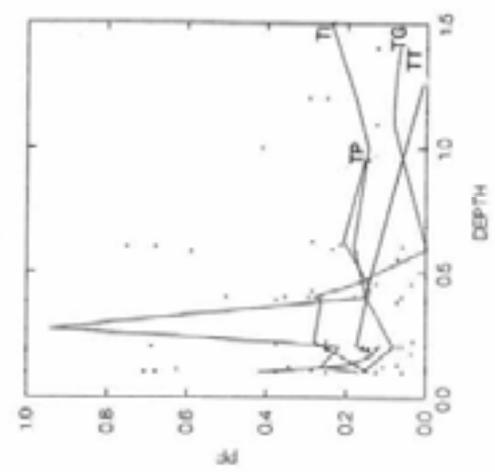

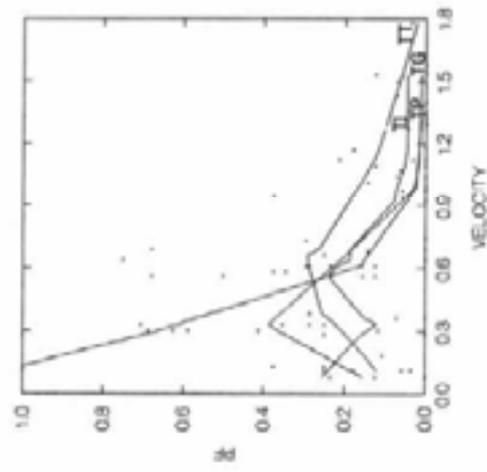

Locally weighted smooth curves plotted through preference factors (PF) (see Section 2.5 for details of calculation) for taxonomic richness (number of taxa), total inverttebrate densities, densities of 7 major taxa and chironomid biomass in relation to water velocity ($m.s^{-1}$) and depth (m) at 3-4 sites on Tongariro River.

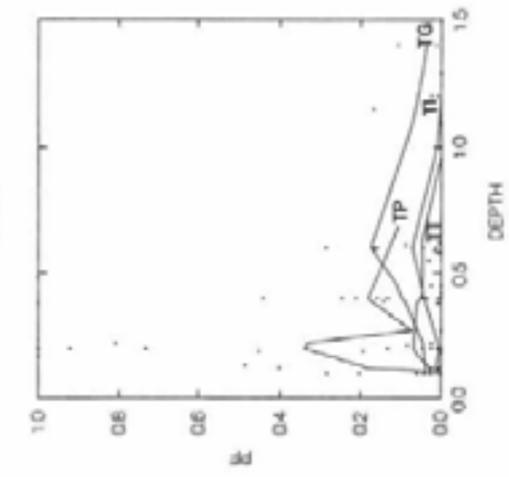

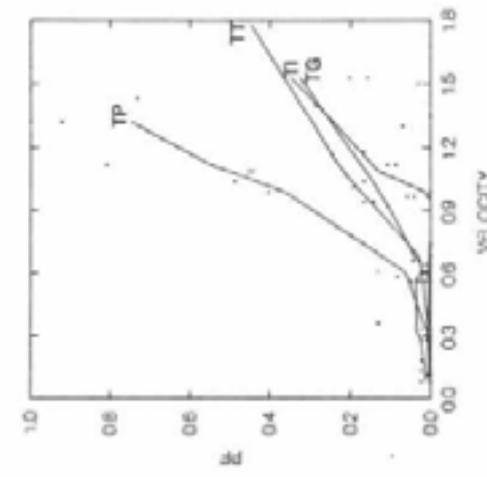

Defleatidium spp.

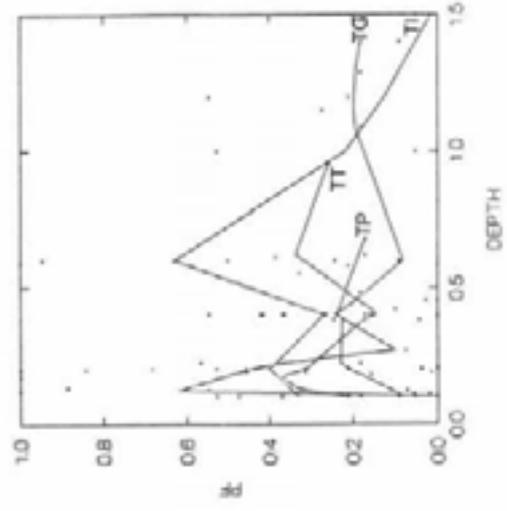

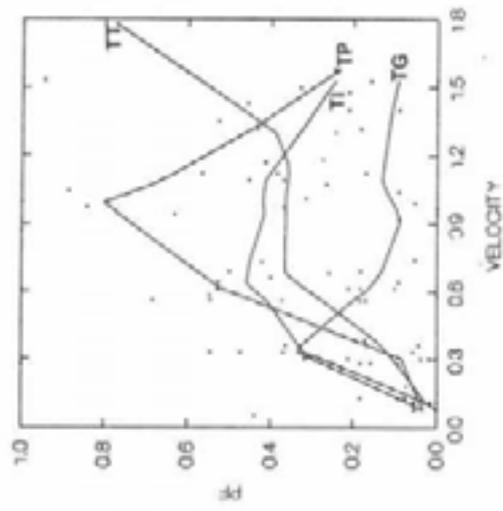

Z. furcillatus

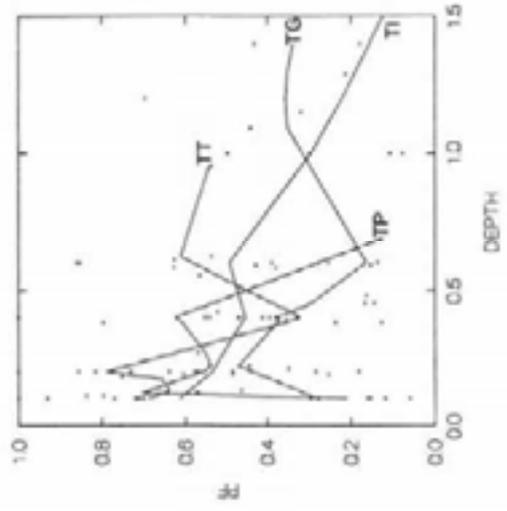

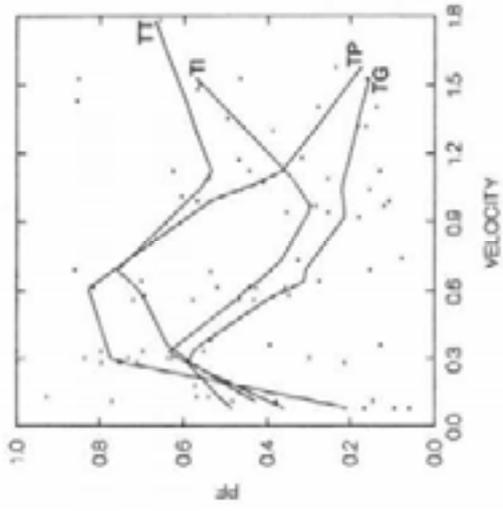

Aoteapsyche spp.

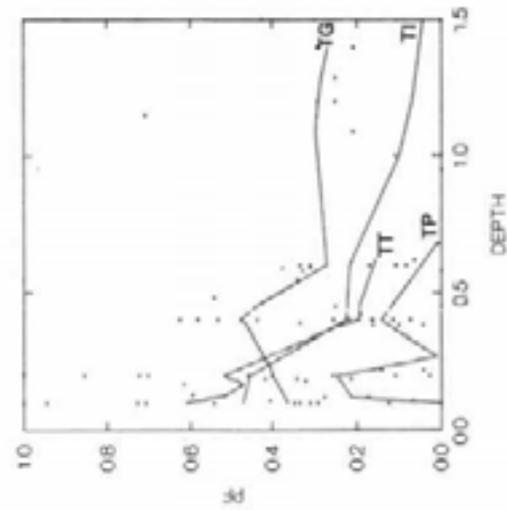

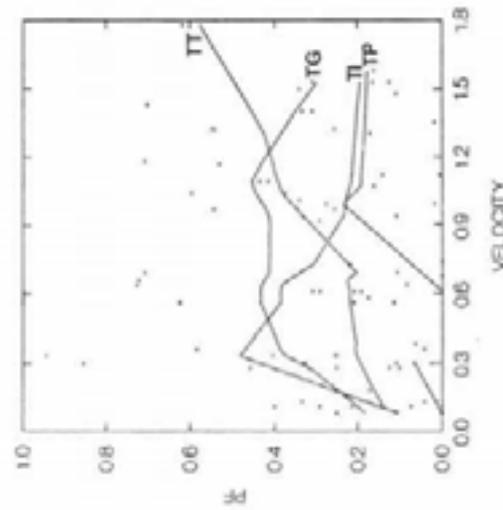

A. neozelandica

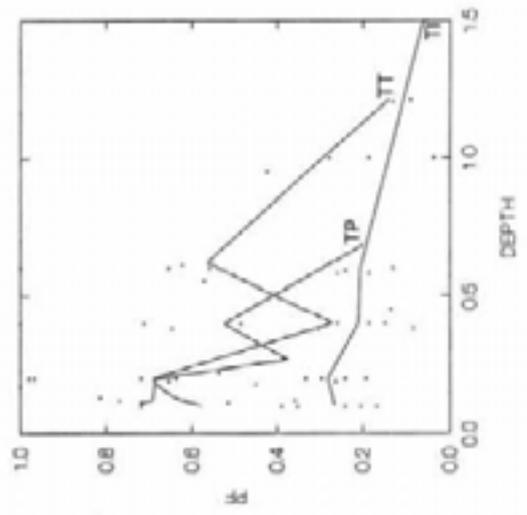

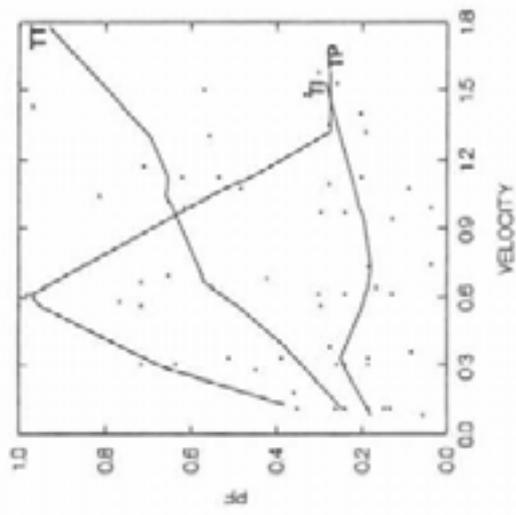

Chironomidae

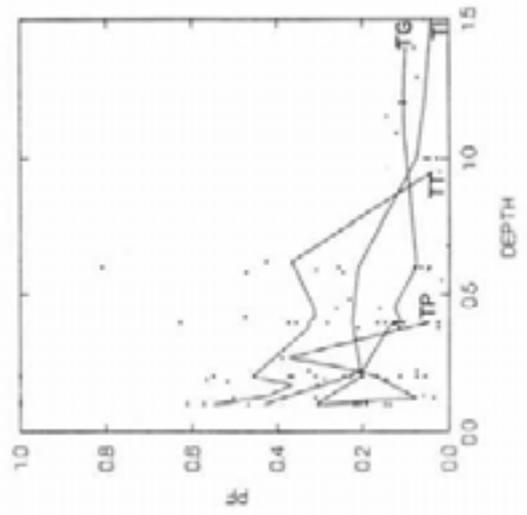

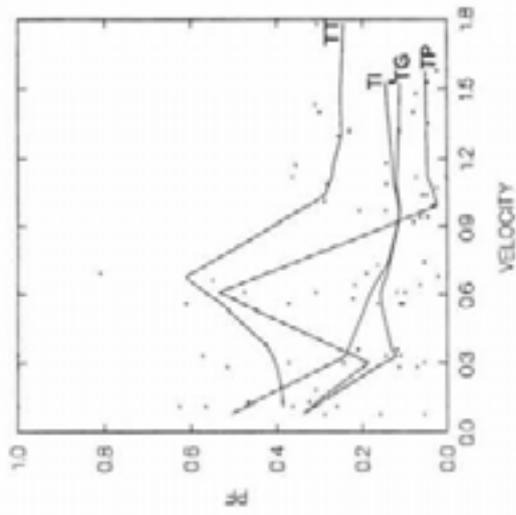

Hydrobiosidae

Chironomidae biomass

Oligochaeta
