F. Objection or submission

The specific parts of the application that this objection or submission relates to are:

Access to the whitehouse should not be restricted as there are other places to stack your pots and if there is no access to a toilet, people will just go to the bathroom everywhere.

My reasons for my objection or submission are:

If there is an issue with pots being stacked so high around the whitehouse, that it is dangerous then don't stack them so high around the whitehouse. How many tourists are at risk of these pots falling on them as claimed in the health and safety risks? I climbed pots like jungle gyms as a child of a cray fisherman and never came to harm, if they are stacked right then they are safe as, even 6 pots high.

The outcomes that need to be addressed by this application are:

Give precise details, including the parts of the application you wish to have amended and the general nature of any conditions sought if the application is approved.

Access to the whitehouse should not be restricted. Beside the whitehouse is an important turning area that is necessary for all users of Deep Water Basin to make safe manoeuvres with their vehicle and vessels. Restricting access to the whitehouse and the road area around it will only lead to fouling of the area and vehicle accidents. Why waste time and money on DOC building "new facilities" for visitors to DWB to go to the toilet, when there are perfectly good facilities there that are already being utilised and cleaned sufficiently?
