Introduction

Deep in the heart of the Marlborough Sounds, South Island, New Zealand, the spectacular Queen Charlotte Track stretches from the legendary Meretoto/Ship Cove to Anakiwa, home of Outward Bound New Zealand’s school. The track crosses both private and public land and offers unsurpassed views of the Queen Charlotte/Tōtaranui and Kenepuru sounds. The track is a unique partnership between the Department of Conservation (DOC), Marlborough District Council and private landowners (see the Private land fees section).

The 70-kilometre track is wide and benched and is suitable for both walkers and mountain bike riders, taking 3 to 5 days to complete walking, or 2 to 3 days mountain biking. Walking boots or a mountain bike and a good level of fitness are required.

Much of the track’s charm is its relative ease of access, which allows visitors to walk or bike the track in sections. Road and boat transport services are available from Picton. You can also arrange for your gear to be transported between overnight stops by one of the boat operators. There are many places to stay along the way, either in private accommodation or in DOC campsites.

The Queen Charlotte Track is the Marlborough Sounds section of Te Araroa — The Long Pathway, a hiking trail the length of New Zealand, from Cape Reinga to Bluff. For more information on Te Araroa go to www.teararoa.org.nz.

The track is also one of New Zealand’s Great Rides as part of Nga Haerenga The New Zealand Cycle Trail. For more information go to www.nzcycletrail.com.

Getting there

Picton is the best place to access the track from. Anakiwa, Te Mahia Saddle, Mistletoe Bay, Torea Saddle and Bay and Kenepuru Saddle are all accessible by road. Endeavour Inlet, Resolution Bay and Meretoto/Ship Cove can only be accessed by sea. Many short walks can be enjoyed from these places.

Transport operators

A number of companies offer boat transport to and from points along the track, including Meretoto/Ship Cove and Anakiwa. Further information is available from the Picton i-SITE.

For more information about the Queen Charlotte Track, visit www.doc.govt.nz or contact:

Mountain biking

Mountain biking is a great alternative to walking the Queen Charlotte Track. Biking is permitted all year except for the section between Meretoto/Ship Cove and Kenepuru Saddle, which is closed to bikes from 1 December to 28 February each year. Allow 2 to 3 days to ride the entire track, but sections make good day rides, particularly between Meretoto/Ship Cove and Kenepuru Saddle (27 km) and Mistletoe Bay and Anakiwa (12.5 km).

Queen Charlotte Track is graded as 70% intermediate/grade 3 and 30% advanced/grade 4 mountain biking. Most riders will find some sections of the track easier to walk. If you are moderately fit and experienced at mountain biking, the track is very rideable, albeit steep and challenging in certain sections, especially when it is slippery and muddy after rain. Less experienced riders may prefer to avoid the ridge-top sections of the central part of the track by riding along Kenepuru Road between Kenepuru Saddle and Portage.

There are no facilities along the way for repairing bikes; please make sure you have adequate tools and equipment and are competent to complete your own repairs.

Visit www.nzcycletrail.com for more information about mountain biking the Queen Charlotte Track.

Approximate biking times:
- Meretoto/Ship Cove to Camp Bay: 26.5 km, 5 hr
- Camp Bay to Torea Saddle: 23 km, 4 hr
- Torea Saddle to Anakiwa: 20.5 km, 4 hr.

**Private land fees**

Sections of the track cross private land. Track users are required to have a Queen Charlotte Track Land Cooperative (Q.C.T.L.C.) Pass for all Q.C.T.L.C. private land between Kenepuru Saddle, Torea Saddle, Te Mahia Saddle and Anakiwa. The pass fee contributes to track maintenance, enhancement and access.

For more information on the pass contact the Q.C.T.L.C. qctlc@yahoo.co.nz or www.qctlc.com.

Please respect the owners’ property and do not use vehicles or take firearms or dogs on the track.

**Pass fees:**

Passes can be purchased at local i-SITEs, online, from a dispensing machine at Anakiwa and some businesses near the track.

**Mountain bike track grades**

- **Intermediate/Grade 3:** Steep slopes and/or avoidable obstacles possibly on narrow track and/or with poor traction. There may be exposure at the track’s outside edge.
- **Advanced/Grade 4:** A mixture of long, steep climbs, narrow track, poor traction and obstacles that are difficult to avoid or jump over. Generally exposed at the track’s outside edge.
Walking the track

It is best to start the track from Meretoto/Ship Cove. You can arrange with the boat operators to have your pack carried between your accommodation stops. The track is graded as an easier tramping track and walking times mentioned below lean towards a person with a slow walking speed.

Grade: Easier tramping track
- Moderate day or multi-day tramping/hiking.
- Track is generally well formed, may be steep, rough or muddy.
- Suitable for people with moderate fitness. Limited backcountry (remote areas) experience required.
- Track has signs, poles or markers. Major stream and river crossings are bridged.
- Light tramping/hiking boots required.

Meretoto/Ship Cove to Endeavour Inlet: 5 hr, 15 km
There is no road to Meretoto/Ship Cove so you will need to arrange boat transport to start your walk there. Camping is not permitted at Meretoto/Ship Cove but there are toilet facilities. Take some time to explore the historic site and enjoy reading the interpretation panels.

The track climbs away from the beach, passing through a largely unmodified forest, where the high canopy is complemented by a diverse understorey of shrubs and small trees. On the ridges higher up, beech trees dominate. After 50 minutes walking, you will reach a lookout point at a saddle where you will enjoy good views of both the inner and outer Queen Charlotte Sound/Tātaranui. Beyond the saddle, the track drops into Resolution Bay, where there is a DOC campsite at Schoolhouse Bay and further along, private cabin accommodation.

From Resolution Bay the track follows a well-graded old bridle path over a ridge and into Endeavour Inlet. It winds downward and follows the shoreline to the head of the inlet, where interpretation signs recall the antimony mining era. Private accommodation is available along the way (go to www.qctrack.co.nz for options).

Endeavour Inlet to Camp Bay: 4 hr, 11.5 km
From Endeavour Inlet the track stays near the shoreline and wanders through regenerating forest rich in small birds. It rounds Big Bay to Camp Bay where there is a DOC campsite and, a little further on, private accommodation. It is possible to bypass Camp Bay by using a direct track to Kenepuru Saddle.

Camp Bay to Torea Saddle: 8 hr, 23 km
(via Bay of Many Coves and Black Rock campsites)
The track passes through private land in this section. Make sure you have your Q.C.T.L.C. Pass (see Private land fees section overleaf for more information).

This is the longest and most arduous section of the journey; most mountain bikers will need to push their bike in various places here. However, from the top of the ridge you will be well rewarded with magnificent panoramas of the Sounds. Climb out of Camp Bay to Kenepuru Saddle and follow the ridge separating Queen Charlotte Sound from Kenepuru Sound. Above Bay of Many Coves and Kumototo Bay are two DOC campsites, each with water (limited supply in summer months), toilets and a cooking shelter. Eventually the track descends to Torea Saddle between Portage and Torea Bay. There is a DOC campsite at Cowshed Bay and private accommodation in Portage.

Torea Saddle to Mistletoe Bay: 4 hr, 8 km
(via Davies Bay campsite)
The track passes through private land in this section. Make sure you have your Q.C.T.L.C. Pass (see Private land fees section overleaf for more information).

This part of the journey also follows the ridgeline. Here gorse and mānuka are prolific, sheltering shrubs and trees that will one day shade the way. A side walk leads to a lookout just before the descent to Te Mahia Saddle begins.

At Mistletoe Bay there are cabins and campsites. To book, contact Mistletoe Bay Eco Village (phone 03 573 5048 or go to www.mistletoebay.co.nz). There is also private accommodation at Te Mahia Bay.

Mistletoe Bay to Anakiwa: 4 hr, 12.5 km
(via Davies Bay campsite)
Beginning on the road above Mistletoe Bay, this section follows old bridle paths high above the water. The track rounds an obvious point and descends to the DOC Davies Bay campsite at Umungata Bay (Davies Bay). The final hour’s walking is on an easy path through mature beech forest to Anakiwa. At Anakiwa there is a car park, shelter, toilet, and phone near the track end, and a jetty. Here you can catch a boat to Picton (see Getting there) or stay in nearby accommodation (go to www.qctrack.co.nz for options).

Your safety is your responsibility

The Sounds Foreshore Reserve
Public access to most bays and beaches in the Marlborough Sounds is guaranteed by the unique Sounds Foreshore Reserve. This is an approximately 20-metre wide strip of publicly owned land above the mean high water mark. If you use this reserve, please respect the rights of any nearby residents. Some landowners have riparian (private) rights to the foreshore.

Fire
- We encourage the use of gas cookers. No fires are permitted in campsites or along the track.
- During periods of extreme drought and high fire risk, the track may be closed.

Water
- All water must be boiled for more than 3 minutes to make it safe to drink.
- Do not use soap in streams.
- Always carry drinking water, particularly between Kenepuru and Te Mahia saddles.
- Water taps are provided at the DOC campsites and washing sinks are provided in the cooking shelters.
- Water supplies are limited, so use sparingly.
- During dry seasons a water supply may be empty.

Jetties
Many jetties in the Sounds, such as the one at Outward Bound New Zealand, Anakiwa, are privately owned. Boat owners can use them for picking up and dropping off passengers and luggage only. Please do not tie up or leave your boat unattended at any jetty in the Sounds.

Rubbish
There are no rubbish facilities along the track. The nearest disposal sites are at Havelock or Picton.

Wasps
Wasps are common in late summer and autumn, particularly on beech trees. Carry antihistamines if you are allergic to their stings.

Pigs and goats
You may encounter a wild pig or goat along the track – they will usually take fright and disappear quickly into the bush. These pests are responsible for the disturbed ground and chewed plants along the track. You may also encounter hunters with dogs and/or firearms looking for these pest animals.
**Short walks**

With such good access by road and/or sea, most sections of the track can be used for day walks. There are also several short side-trips along the way.

- **At Meretoto/Ship Cove**, you can take the Waterfall Track to a small waterfall in the forest (30 minutes return).
- **At the head of Endeavour Inlet** the Antimony Tramping Track leads up to a saddle and passes through an area that was extensively mined for antimony in the late 1880s (up to 2 hours return).
- **In Mistletoe Bay**, the James Vogel Nature Track allows you to explore the forest behind the picnic and camping area (45 minutes return). The Peninsula Walk explores the peninsula between Mistletoe and Waterfall bays (30 minutes return).

**Approximate biking times**

- Meretoto/Ship Cove to Camp Bay: 26.5 km, 4 hr
- Camp Bay to Torea Saddle: 23 km, 4 hr
- Torea Saddle to Anakiwa: 20.5 km, 4 hr
