Lower NI Land Assessment 2018-22 - Appendix 2

Wairarapa	Tararua Forest park	Permitted	Not Permitted	New proposal based on consultation	After many submissions and public discussion, close a buffer along the Te Araroa Trail where it crosses PCL.		The Te Araroa Trail is not a Great Walk and generally not used more than other popular tracks. No reason for having a buffer any more than other tracks. Retain status quo.	
Wairarapa	Tararua Forest park	Permitted	Not permitted	New proposal based on consultation	We received many suggestions to place a restricted area around the Mangahao Dams road area - see submissions.		No change to current WARO status proposed (currently WARO is excluded annually from 1 October – 30 April) – insufficient justification for year-round WARO exclusion.	
Wairarapa	Remutaka Forest Park	Permitted	Not permitted	New proposal based on consultation	We received a lot of advice to close all of the Remutaka Forest Park to WARO, except for the northern area, as per the 2009 permit.		Retain status quo – insufficient justification for WARO exclusion. WARO is permitted under Policy 4.15 with no restrictions in table 4.16 in the Wellington CMS 2019. Conditions require WARO to avoid visitor facilities.	
Wairarapa	Remutaka Forest Park - Corner Creek to Orongorongo exclusion area (~300 ha)- see polygon	Permitted	Not permitted	Part of national cycleway project, popular camping, fishing and diving area	Part of national cycleway project, popular camping, fishing and diving area		Retain status quo – insufficient justification for WARO exclusion. WARO is permitted under Policy 4.15 with no restrictions in table 4.16 in the Wellington CMS 2019. Conditions require WARO to avoid visitor facilities.	
Wairarapa	Puketoi Conservation Area (~1781)	Permitted	Not Permitted	Draft assessment was that this reserve should be open to WARO	Following numerous submissions and re-assessment of this site WARO should not be permitted. Almost entirely tight canopy and no part of the reserve is outside the 2km pesticides margin, Horizons RC has an ongoing broadifacoum control programme in this area so no declaration would be possible and therefore no recovery could legally occur		No change was proposed for this area prior to consultation, however, during consultation it was recommended by the local office to become not permitted due to its tight canopy & narrow shape making it unsuitable for heli-shooting. National panel consider it should remain permitted as there is insufficient justification to close (WARO operators will decide if suitable or not for WARO).	
Gisborne	Onepoto Conservation Area	Permitted	Not permitted	Very small area with boundaries alongside SH 38 and Onepoto village, track to Lake Kiriopukae is well used by visitors to Waikaremoana also Camp Kaitawa school children.	WARO not permitted -Very small area with boundaries alongside SH 38 and Onepoto village, track to Lake Kiriopukae is well used by visitors to Waikaremoana also Camp Kaitawa school children.		High public use area alongside village	
Gisborne	Wharekopae Conservation Area (~953)	Permitted	Not permitted	Small Reserve surrounded by farmland, Poplar Reserve with Rec hunters	WARO not permitted-Small Reserve surrounded by farmland,. Consistent with other areas of small PCL.		Insufficient justification to change to not permitted and up to WARO to decide whether to hunt given pesticide declarations will be required.	
Gisborne	Matawai Conservation Area (~2650 ha)	Permitted	Not permitted	Small Reserve surrounded by farmland, Poplar Reserve with Rec hunters	WARO not permitted-Small Reserve surrounded by farmland, Consistent with other areas of small PCL.		Insufficient justification to change current WARO status to not permitted	
Gisborne	Whakaroa Scenic Reserve (184 ha)	Permitted	Not permitted	Small Reserve, tight canopy with no heli-shooting opportunities	Very Small Reserve, tight canopy with no heli-shooting opportunities. Consistent with other areas of small PCL.		Insufficient justification to change current WARO status to not permitted	
Gisborne	Tutamoe Conservation Area (~196 ha)	Permitted	Not permitted	Small Reserve surrounded by farmland	Small Reserve surrounded by farmland. Consistent with other areas of small PCL.		Insufficient justification to change current WARO status to not permitted	
Gisborne	Teritua Conservation Area	Not Permitted	Permitted	Bound Raukumara Forest Park	Adjacent to Raukumara Forest Park so opening to WARO consistent with RFP		Adjacent to Raukumara Forest Park so opening to WARO is consistent with arlinine Land status	
Manawatu	Part of Ruahine Forest Park and associated conservation areas	Permitted	Restricted	Green area changed to orange - WARO season to be 1st May to 30th November. Outcome of Ruahine Deer Working group pre management plan drafting work over last 2 years. Endorsed by Director & Ops Manager	See DOC-5519513. The revised Wellington Conservation Management Strategy currently being considered by NZCA requires that a Deer Management Plan be developed for the Ruahine Forest Park. The current preferred option is based on a co-management approach where the Department, recreational hunters and commercial hunters agree on targets for deer removal and biodiversity outcomes. The preferred management approach can only be implemented if the Park is excluded from the 2018 National WARO offer. Work still needs to be done to capture the preferred approach in a Plan that can be agreed by members of the Working Group and other partners, including iwi. This could be completed in time for the new approach to be implemented from 30 June 2019. A Ruahine Forest Park WARO concession would need to be available until that time.		No change to current status proposed (i.e. part not permitted, part restricted – open to WARO 1 May – 30 November annually as per 2015 Ruahine decision review).	
Hawkes Bay	Kaweka Forest Park/Kaweka Forest Conservation Area	Not Permitted	Restricted/Not Permitted	Kaweka FPMP 1991 S.1.1D (i) and (v) advocates for wild animal control including supplementing with other control methods, including commercial, if primary recreational hunting is not achieving level of control necessary to protect park values.	Initially no change consulted on but Panel recommend Restricted in consideration of high deer numbers and Deer Control Policy requirements. Dates for restriction- WARO allowed 1 June – 31 October, consistent with nearby Kaimanawa Forest Park. Only applies to land outside gazetted recreational hunting area (RHA). RHA to remain not permitted to WARO.		Restricted outside RHA in consideration of high deer numbers and Deer Control Policy requirements. Dates for restriction- WARO allowed 1 June – 31 October, consistent with nearby Kaimanawa Forest Park. Only applies to land outside gazetted recreational hunting area (RHA). RHA to remain not permitted to WARO.
