

**Background:**

Heritage Gold NZ Limited was granted Exploration Permit (EP) 40081 in 1995, covering the same area as Mining Permit (MP) 51326. In 1997, Ministers approved an Access Arrangement (AA) for prospecting activities, later varied in 1998 to allow surface drilling. The company submitted work plans for ongoing activities including drilling and sampling. The initial AA expired in 2007, and a new one was granted in 2008, expiring in 2009 when EPs were exchanged for MP 51326. This permit covered the same land as the previous EPs. In 2012, the company changed its name to New Talisman Gold Mines Limited.

The most recent access arrangement and variations held in relation to MP 51326 were under 37273-AA. A timeline of key events is summarised below.

- Original access arrangement issued jointly by the Minister of Energy and Resources and the Minister of Conservation 28 November 2013.

Status	Type	Primary Service	Permission Number	NZPM ID	Term Start	Term End	Holder
Active	Access Arrangement (AA) - Variation	Gold - Underground	108636-AA-V1	51326	24/06/2024	24/06/2029	New Talisman Gold Mines Limited
