

2019 sea lion Forum – draft agenda

Purposes

- To present a summary of the results of the past year's Sea Lion Threat Management Plan work to the Sea Lion Stakeholder Forum;
- To seek Forum endorsement of priority projects for the 2019/2020 financial year;
- To discuss, develop and prioritise projects for the 2020 / 2021 financial year for Rakiura, Murihiku and Otākou; and
- To provide participants an opportunity to view and experience some of the projects under way on a field trip to sea lion habitat, and to network and share expertise with others involved in sea lion management and protection.

Outcomes:

- A list, in priority order, of projects / focus areas for the Mainland and Rakiura in accordance with the TMP direction and goals for presentation to the Advisory Group; and
- A list of any other recommendation(s) the Forum may wish to make, e.g. to Fisheries NZ, or to the Conservation Services Programme.

The organisers also hope that the Forum will;

- Further strengthen understanding and relationships between all Forum members;

And that participants leave

- Feeling that their engagement in the Forum has been positive and worthwhile.

How Workshop Results will be used

- Recommendations from this Forum will be provided to the Sealion TMP Advisory Group for consideration alongside sealion management proposals for the off-shore islands, and a combined set of projects put forward for decision by the three partners to the Threat Management Plan. Proposals will then be taken forward into the Department of Conservation's business planning process and business cases prepared.
- The refined set of proposals for the 2020/21 year will then be shared back with Forum members for endorsement at the 2020 Forum meeting.

Time	Task	Who
10:00	Karakia, Mihi Whakatau, Welcome Introductions, Purpose and Programme	Hoani ? Ngai Tahu

Time	Task	Who
		Michelle Rush, Independent Facilitator

2019 sea lion Advisory Group – draft agenda

Purposes

- To present a summary of the results of the past year's Sea Lion Threat Management Plan work to the Sea Lion Stakeholder AG;
- To seek AG endorsement of priority projects for the 2019/2020 financial year;
- To discuss, develop and prioritise projects for the 2020 / 2021 financial year for the subantarctic and the species overall; and
- To provide participants an opportunity to view and experience some of the projects under way on a field trip to sea lion habitat, and to network and share expertise with others involved in sea lion management and protection.

Outcomes:

- A list, in priority order, of projects / focus areas for the subantarctic and species overall in accordance with the TMP direction and goals; and
- A list of any other recommendation(s) the AG may wish to make, e.g. to Fisheries NZ, or to the Conservation Services Programme.

The organisers also hope that the AG will;

- Further strengthen understanding and relationships between all AG members;

And that participants leave

- Feeling that their engagement in the AG has been positive and worthwhile.

How Workshop Results will be used

- Recommendations from this Forum will be provided to the Sealion TMP Advisory Group for consideration alongside sealion management proposals for the off-shore islands, and a combined set of projects put forward for decision by the three partners to the Threat Management Plan. Proposals will then be taken forward into the Department of Conservation's business planning process and business cases prepared.
- The refined set of proposals for the 2020/21 year will then be shared back with AG members for endorsement at the 2020 Forum meeting.
