

## Motukarara nursery “two-year” species

“Two-year species” are plants that take two seasons to reach a plantable size – most species only take one season. As the plants are in the nursery for an additional season, we charge for them at a different rate to cover the additional maintenance.

Botanical name	Māori name	Other name
<i>Dacrycarpus dacrydioides</i>	Kahikatea	White pine
<i>Prumnopitys taxifolia</i>	Mataī	Black pine
<i>Podocarpus totara</i>	Tōtara	
<i>Podocarpus cunninghamii</i>		Mountain tōtara
