Appendix One – Guided Walking Location and Activity Levels

Outlined below are the activity levels being sought by Heritage Expeditions for guided walking activity for the global concession, including the places we wish to operate.

This outlines the frequency of activity across all places, then with specific requirements on party sizes and numbers of visits per day for each major area we will visit.

Please note that this information is also to be applied to the application for land based marine mammal viewing. Most interactions with marine mammals are secondary to the activity of guided walking. Purposeful viewing of the NZ sealion colonies on the Subantarctic Islands is part of these trips.

Unless stated otherwise each place proposed to visit shall combine the following frequency of visits in Table One:

Note, in the context of this application a trip is defined as a scheduled voyage run by Heritage Expeditions. The trips can vary between 5-14 days. Information on the trips offered can be found on New Zealand Cruises | Heritage Expeditions. This may also include independent charters.

For clarity, when referring to vessel size it needs to be read as follows:

- Smaller vessel – Heritage Explorer and the new 36 passenger vessel
- Larger vessel – Heritage Adventurer and Heritage Discoverer

This table is to be used for the guided walking application and the marine mammal viewing applications.

Table One – Activity Levels

Time Period	Vessel	Proposed Operations	Indicative Frequency / Activity Levels
2026–2030	Heritage Explorer	Year-round expedition operations within New Zealand, including Fiordland, Rakiura, Nelson/Marlborough and potentially other parts of New Zealand	1–2 trips per week
2026–2030	Heritage Adventurer (or similar sized vessel)	Additional expedition voyages within New Zealand in addition to the Subantarctic Island operations	Up to 12 trips per year

Time Period	Vessel	Proposed Operations	Indicative Frequency / Activity Levels
From 2030 onwards	Heritage Explorer	Continued year-round expedition operations within New Zealand, including Fiordland, Rakiura, Nelson/Marlborough and potentially other parts of New Zealand	1–2 trips per week
From 2030 onwards	Heritage Adventurer (or similar sized vessel)	Additional expedition voyages within New Zealand in addition to the Subantarctic Island operations	Up to 12 trips per year
From 2030 onwards	New small expedition vessel (36 passengers)	New Zealand coastal expedition programme operating across multiple locations with flexible itineraries and 5–10-day turnaround scheduling. This vessel may also visit the Subantarctic Islands.	Approximately 1 trip per week
From 2030 onwards	Additional larger vessel capacity	Additional expedition capability within New Zealand, including the Subantarctic Islands	Up to 12 additional trips per year
From 2030 onwards – Kermadec Islands and Chatham Islands	Heritage Explorer and new small expedition vessel (36 passengers)	Expedition voyages to the Kermadec Islands and Chatham Islands	Up to 6 trips per year
From 2030 onwards – Kermadec Islands and Chatham Islands	Heritage Adventurer (or similar sized vessel)	Expedition voyages to the Kermadec Islands and Chatham Islands	Up to 2 trips per year

From 2030 onwards, Heritage Expeditions anticipates operating an additional smaller expedition vessel within New Zealand waters with a passenger capacity of 36. This vessel will support multi-location expedition itineraries with regular 5–10-day operational turnaround cycles, enabling greater flexibility and increased access opportunities across a range of New Zealand coastal and island destinations.

In addition, an extra larger vessel is expected to be available for up to 12 additional trips annually within New Zealand waters, further supporting future growth, itinerary flexibility and operational resilience.

In Fiordland it is noted that Heritage Expeditions presently has a coastal permit from Environment Southland that enables them to operate 280 days of the year, so any activity from a concession will need to reflect this requirement for Fiordland.

For the Subantarctic Islands, Heritage Expeditions has already indicated through the permit allocation process that it will have an extra vessel likely to offer 2 more trips per year than presently occurring. This coincides with the introduction of a second larger vessel and the smaller 36 passenger vessel.

As with any expedition cruising business, operational schedules are planned 2–3 years in advance of departure. This includes determining, at a high level, when vessels and visitors are expected to be at locations and sites across the itinerary. This is why we are seeking flexibility in where we can access when over the 30 years.

Kermadecs

All sites seek the following:

- Guided Walking only
- 6 trips per year for smaller vessel and 2 trips per year for larger vessel
- Party size will be managed at 15 per trip (plus guides), noting there can only be two trips per day, with total of 150 visitors per year as per existing planning requirements.
- Unless specified otherwise the duration of the visits is up to 1-4 hours at each site.

It is noted this is not consistent with the requirements of the Auckland CMS. This CMS is very outdated, and we are seeking that the numbers above be considered in the context of being able to manage effects well and enable more consistency with other places across New Zealand.

The tracks this applies to include:

Location	**Track name**	**Specific Differences**
DOC land parcel name		
Kermadec Island Nature Reserve	Raoul Island – Fishing Rock	
Kermadec Island Nature Reserve	Black Swamp track & route 06	
Kermadec Island Nature Reserve	Boat Cove Road	
Kermadec Island Nature Reserve	Denham Bay Track	
Kermadec Island Nature Reserve	Top Track – Western Springs Junction Track	
Kermadec Island Nature Reserve	Orange Grove Track	

Kermadec Island Nature Reserve	Ravine Road	
Kermadec Island Nature Reserve	Low flat road	

Nelson/Marlborough

All sites seek the following unless specified otherwise:

Vessel Type	Example Vessel	Indicative Frequency	Max. party size (including guide)	Max visits at each site per day
Smaller expedition vessel	Heritage Explorer	Up to 2 trips per week	15	Up to 3 -5 visits per site per day
Larger expedition vessel	Heritage Adventurer	Periodic Cruises	50	Up to 3-5 visits, depending on party sizes

Some visitors will freedom walk, no guiding required. Duration of visit per site will be between 1-4 hours unless specified otherwise. Use of facilities outside of the normal track facilities is listed under 'Specific Differences'.

The tracks this applies to include:

Location	Track name	Specific Differences
DOC land parcel name		
French Pass Scenic Reserve	French Pass Lookout Track	
Durville Island Scenic Reserve	Catherine Cove Track – Durville Island	
Admiralty Bay and Tennyson Inlet		
Elaine Bay Scenic Reserve	Piwakawaka Track from Elaine Bay	Conforming Track
Deep Bay Scenic Reserve and Henry Bay Scenic Reserve	Archers Track From Elaine Bay to Penzance Bay

Deep Bay Scenic Reserve – not sure this is on DOC land.	Cone Peak Track	

Pelorus Sound		
Tennyson Inlet Scenic Reserve and Nydia Bay Scenic Reserve	Ngawhakawhiti Bay to Nydia Bay	
Nydia Tramway Route	Nydia Tramway Route	
Tom Shand Scientific Reserve	Maud Island Gun Emplacement Track	
Cullen Point Scenic Reserve	Cullen Point Tracks	
Putanui Scenic Reserve	Putanui Point Track	
Queen Charlotte Sound		
Motuara Island Scenic Reserve	Motuara Island	
Queen Charlotte Track, Big Bay Scenic Reserve, Endeavour Inlet Scenic Reserve, Howdens Bush Scenic Reserve, Tawa Bay Scenic Reserve, Sounds Foreshore Reserve	Ship Cove to Endeavour Inlet	
Grants Lookout Scenic Reserve	Endeavour Inlet Antimony Mine Track	
Queen Charlotte Track, Conservation Area Public Access Resolution Bay, Resolution Bay Scenic Reserve, Ship Coves Historic Reserve	Endeavour Inlet to Punga Cove	
Blumine Island Scenic Reserve	Blumine Island Oruawairua Track over to the gun emplacements	
Kumutoto Scenic Reserve	Kumutoto Bay Track	
Partially in Aorangi Scenic Reserve	James Vogel Track- Mistletoe Bay	
Waterfall Bay Scenic Reserve	Peninsula Walk	

Momorangi Bay Recreation Reserve and Momorangi Bay Scenic Reserve	Momorangi Forest Experience Walk	Potentially a Conforming Track
Governors Bay Recreation Reserve	Govenors Bay Walk	Conforming Track
Kaipupu Scenic Reserve	Kaipupu Sanctuary Loop	
Karaka Point Recreation Reserve and Karaka Point Scenic Reserve and Historic Reserve	Karaka Point Track	Conforming Track
Sounds Foreshore Reserve, Ngaruru Scenic Reserve	Arapaoa Island Tracks – Cooks Lookout	
Arapawa Island Scenic Reserve	Arapaoa Island- Perano Whaling station	
White Bays Recreation Reserve	Rarangi to Whites Bay Track	
White Bays Recreation Reserve	Black Jack Track	
Wharehunga Bay Recreation Reserve	Wharehunga Bay	
Long Island Scenic Reserve	Long Island WWII Submarine Monitoring Station	
Iwituaroa Scenic Reserve and Conservation Area – Onahau Bay	Queen Charlotte Track from Anakiwa-Onahau Bay	
Farewell Spit		
Kahurangi National Park	Knuckle Hill Track	Smaller party sizes of 9 including guides for the areas zoned remote (if relevant), otherwise backcountry requests apply. Facility - carpark
Kaihoka Lakes Track	Kaihoka Lakes Track	Conforming Track Facility - carpark

Puponga Farm Park	Whararíki Beach to Greenhills Beach track	Facility - carpark
PupongaFarm Park	Whararíki Beach Track	Conforming Track Facility - carpark
Puponga Farm Park	Puponga Hilltop Walk	Conforming Track Facility - carpark
Puponga Farm Park	Pillar Point Lighthouse Walk	Conforming Track Facility - carpark
Puponga Farm Park	Fossil Point Track	Conforming Track Facility - carpark
Farewell Spit Nature Reserve	Farwell Spit walk	Conforming Track Facility - carpark
Golden Bay/Takaka		
Te Waikoropupu Springs Scenic Reserve	Te Waikoropupu Springs Walk	Up to 20 visitors per group, plus 2 guides. Multiple groups in one visit, that will be appropriately separated. Facility - carpark
Abel Tasman National Park	Abel Tasman Monument Ligar Bay	Facility - carpark
Motupipi Hill Conservation Area	Motupipi Hill Track	Facility - carpark
Abel Tasman National Park	Taupo Point Track	Facility - carpark (potentially)
Abel Tasman National Park	Inland Track	Potentially a Conforming track Duration – 4-12 hours
Abel Tasman National Park	Wainui Falls Track	

Abel Tasman

All the Abel Tasman sites we are seeking have recently been run through an allocation process so will not be available for separate consideration through this global concession application (unless DOC identifies they are sites not relevant to this process).

Assuming a positive outcome from the concession process Heritage Expeditions will have ten years of tenure from 2027.

Despite this, we are seeking that at least a further 20 years be added to the term of the concession for the Abel Tasman sites, so it can align with the rest of the sites sought. It is noted that a review clause may need to be added in to the concession reflecting that every ten years this concession would be reviewed to consider future allocation processes. Should allocation processes no longer be used for the Abel Tasman sites then the conditions relating to Abel Tasman will remain in place, noting future variations may be made in following years.

Location	Track name	Specific Differences
DOC land parcel name		
Please note that some of these tracks will go through the Abel Tasman Scenic Reserve. Where it is obvious it is noted below.		
Abel Tasman National Park	Whariwharangi Bay to Mutton Cove	Duration – 4-12 hours
Abel Tasman National Park	Mutton Cove to Separation Point	Duration – 4-12 hours
Abel Tasman National Park	Mutton Cove to Anapai Bay	Duration 4-12 hours
Abel Tasman National Park	Anapai Bay to Totaranui	Duration 4-12 hours
Abel Tasman National Park	Totaranui to Waiharakeke Bay	Duration 4-12 hours
Abel Tasman National Park, Abel Tasman Scenic Reserve	Waiharakeke Bay to Awaroa	Duration – 4-12 hours
Abel Tasman National Park	Awaroa to Onetahuti Bay	Duration – 4-12 hours
Abel Tasman National Park, Abel Tasman Scenic Reserve	Onetahuti Bay to Bark Bay Beach	Duration – 4-12 hours
Abel Tasman National Park, Abel Tasman Scenic Reserve	Bark Bay Beach to Torrent Bay	Duration – 4-12 hours
Great Walk Track, Abel Tasman National Park, Abel Tasman Scenic Reserve	Torrent Bay to Observation Beach	Duration – 4-12 hours
Abel Tasman National Park	Torrent Bay/Anchorage Bay to Cleopatras Pool	Duration – 4-12 hours
Abel Tasman National Park	Anchorage Bay to Te Pukatea and Pitt Head Lookout	Duration – 4-12 hours
Great Walk Track, Abel Tasman	Anchorage Bay to Watering Cove and Observation Beach	Duration – 4-12 hours

National Park, Abel Tasman Scenic Reserve		
Great Walk Track, Abel Tasman National Park, Abel Tasman Scenic Reserve	Watering Cove to Apple Tree Bay	Duration – 4-12 hours
Abel Tasman National Park, Abel Tasman Scenic Reserve	Apple Tree Bay to Marahau	Duration – 4-12 hours

Catlins and surrounding areas

All sites seek the following, unless specified otherwise:

Vessel Type	Example Vessel	Indicative Frequency	Max. party size (including guide)	Max visits at each site per day
Smaller expedition vessel	Heritage Explorer	Up to 2 trips per week	15	Up to 3 visits per site per day
Larger expedition vessel	Heritage Adventurer	Periodic Cruises	50	Up to 3-5 visits, depending on party sizes

Some visitors will freedom walk, no guiding required. Unless specified duration of visit is between 1-4 hours per site.

The tracks this applies to include:

Location	Track name	Specific Differences
DOC land parcel name		
Waghorn Waituna Scenic Reserve and Waituna Scientific Reserve	Waituna Lagoon Loop Track	Facility – car park
Waipapa Point Recreation Reserve	Waipapa Point Coastal Walk	Facility – car park
Catlins Conservation Park and Waipohatu Conservation Area	Waipohatu Waterfalls loop track and forest loop	Conforming Track Facility – car park

Curio Bay Scientific Reserve	Curio Bay Petrified Forest	Facility – car park
Catlins Forest Park	McLean Falls	Conforming Track Facility – car park
Tautuku Bay Scenic Reserve	Tautuku Estuary Walk	Conforming Track Facility – car park
Tautuku Bay Scenic Reserve	Lake Wilke	Conforming Track Facility – car park
Tautuku Bay Scenic Reserve	Tautuku Bay Nature Walk	Conforming Track Facility – car park
Papatowai Scenic Reserve, Papatowai Recreation Reserve, Tahakopa Bay Scenic Reserve	Papatowai walks and Old Coach Road (this includes Kings Rock Track and Tahakopa Walk, Possums Track)	Conforming Track Facility – car park
Purakanui Falls Scenic Reserve	Purakanui Falls	Conforming Track Facility – car park
Table Hill Scenic Reserve	Matai Falls	Conforming Track Facility – car park
Jacks Blowhole walking track, Tunnel Rocks Scenic Reserve	Jacks Blowhole Walk	Conforming Track Facility – car park
Nugget Point Lighthouse Reserve	Nugget Point Lighthouse	Conforming Track Facility – car park

Subantarctic Islands

All the Subantarctic Islands are zoned Remote Setting – numbers differ as per zone settings for each Island.

All the Subantarctic sites are allocated through an allocation process. The most recent of these was run in 2025, with a three-year term as part of the nature reserve access permit requirements. This is separate to the concession that also needs to be held by those who undertake guided walking to these places.

Heritage Expeditions has an existing concession that expires in 2031. It is a ten-year concession. We are seeking the term of this concession be expanded to incorporate the 30-year timeframe. Please note the duration of visit as noted in the existing concession will still apply.

It is also expected that prior to the next allocation process occurring DOC should consider reviewing all concessions at these places and run an allocation process that's outcomes are included in the concession and run through reviews of the concession rather than the separate nature reserve allocation process.

Extra vessels will also be used from 2030 onwards and will require increased access.

The sites this relates to are noted below.

Location	Track name	Specific Differences
Auckland Island – Port Ross		
Auckland Island Nature Reserve	Enderby Island Circuit	
Auckland Island Nature Reserve	Enderby Island Boardwalk & Northern Cliffs	
Auckland Island Nature Reserve	Hardwicke	
Auckland Island Nature Reserve	Venus Valley – German Expedition Site	
Auckland Island Nature Reserve	Ranui- coastwatchers hut	
Auckland Island Nature Reserve	Lake Hinemoa – Musgrave Inlet	
Auckland Island Nature Reserve	Coastwatchers Hut-Waterfall Inlet	
Auckland Island – Carnely Harbour		
Auckland Island Nature Reserve	Tagua Bay Coastwatchers Station	
Auckland Island Nature Reserve	Grafton wreck site and Epigwait	
Auckland Island Nature Reserve	Erlangen clearing North Arm	
Auckland Island Nature Reserve	Anjou Point Castaway depot	
Auckland Island Nature Reserve	South West Cape walk from Western Harbour	
Campbell Island		
Campbell Island Nature Reserve	Northwest Bay from Camp Cove to Tucker Cove circuit	
Campbell Island Nature Reserve	Col Lyall Boardwalk	
Campbell Island Nature Reserve	Perseverance Shoreline	
Campbell Island Nature Reserve	Mount Honey from Garden Cove	

Rakiura

All sites seek the following unless specified otherwise:

Vessel Type	Example Vessel	Indicative Frequency	Max. party size (including guide)	Max visits at each site per day
Smaller expedition vessel	Heritage Explorer	Up to 2 trips per week	Frontcountry - 15 Remote - 9	Up to 3 visits per site per day for Frontcountry For remote up to 5 trips per day.
Larger expedition vessel	Heritage Adventurer	Periodic Cruises	50	Up to 3-5 visits, depending on party sizes

Some visitors will freedom walk, no guiding required. Unless specified otherwise the duration of visit is 1-4 hours per site.

It is recognised that there are significant restrictions on access to Port Pegasus and other sites. Heritage Expeditions is seeking the maximum possible to make this work for their business. It notes that there are annual limits as well as daily limits in some places. It also notes that many of their clients will self-guide and will only require access to the shore to undertake their own visits. Clients will also be at different sites across the different tracks/locations listed at any one time. Party sizes can therefore be well managed within the limits set.

The tracks this applies to include:

DOC land parcel name	Track name	Specific Differences
Port Pegasus		
Rakiura National Park	South- Arm to The Settlement The information here relates to all sites unless mentioned separately.	Please also apply the options noted in Policy 14 (periodic tours) and 18 (extra allocations for specified sites) of the Rakiura NPMP for the relevant sites in Port Pegasus.
Rakiura National Park	Disappointment Cove to Broad Bay	
Rakiura National Park	Bald Cone from Shipbuilders Cove	
Rakiura National Park	Bald Cone from Sylvian Cove	
Rakiura National Park	Smiths Lookout From Sylvian Cove	
Rakiura National Park	Evening Cove to Gog & Magog	
Rakiura National Park	Cook Arm to Gog & Magog	
Rakiura National Park	Cook Arm Shipbuilders area	

Rakiura National Park	Smugglers Cove	
Rakiura National Park	Tin Range Surveyors Track	
Rakiura National Park	Tin Range Tramway Track from Diprose Bay	
Easy Harbour		
Rakiura National Park	Easy Harbour to Gog and Magog	Remote setting to be applied as sought. It is noted that part of this area is managed as if it is a wilderness area, but it has not been identified as such for many years. Seeking that small party sized groups are enabled to Gog and Magog. Please note that freedom walk clients are likely to visit this site in small numbers.
Doughboy Bay		
Rakiura National Park	Doughboy Bay to Adams Hill	
Rakiura National Park	Doughbouy Bay to Doughbouy Hill	
	Doughbouy Bay to Mason Bay	
Mason Bay		
Rakiura National Park	The Gutter to Mason Head	A large part of this track is in the Backcountry Zone, so rules for this need to be applied, not as if it is Remote.
Rakiura National Park	Mason Bay/Duck Creek to Freshwater Landing	
Rakiura National Park	Freshwater Landing to Rakiahua Hut/Landing (inclusive of Freds Camp)	
East Coast		
Rakiura National Park	Mount Anglem/Hananui from Christmas Village	
Rakiura National Park	Bungaree to Christmas Village	It is noted that for some of the sites in the Rakiura NPMP states that guided day walking "should not" be approved. In the Effects Assessment attached to this document, the reasons why it should be enabled are outlined. This primarily relates to how Heritage Expeditions manage the

		experience our clients have ashore to ensure remote experiences are well protected.
Rakiura National Park	Port William to Bungaree	
Rakiura National Park	Port William to Lee Bay	
Rakiura National Park, Conservation Area Stewart Island/Rakiura Forest	Port William to North Arm	
Paterson Inlet		
Conservation Area Stewart Island/Rakiura Forest, Conservation Area Horseshoe Bay, Kaipipi Point to Fern Gully Road end Track	North Arm to Fern Gully	
Rakiura National Park	North Arm to Freshwater Landing	
Rakiura National Park	Mount Rakeahua Route	
Rakiura National Park	Pryse Peak Route	
Conservation Area – The Neck	The Old Neck	This site is in the Eastern Place in the Rakiura CMS. It is a Frontcountry zone. It enables 15 visitors (including guides) and for periodic tours 30 visitors. It does not preclude more than one trip per day. We are seeking the periodic tours a party size of 50 per group be applied.
Glory Cove Scenic Reserve	Little Glory to Ocean Beach Night Concession	Refer Effects Assessment
Conservation Area Horseshoe Bay Track Ryans Creek, Track Vaila Voe	Ryans Creek Track from Fern Gully to Thule	Frontcountry

Conservation Area Kapipi Point to Fern Gully Road End, Conservation Area Horseshoe Bay	Fern Gully Track	Conforming Track
Golden Bay Scenic Reserve, Deep Bay Scenic Reserve, Track Golden Bay	Golden Bay to Deep Bay Track	Conforming Track
Deep Bay Scenic Reserve	Peterson Hill Track	
Track Ringaringa Wholers Point Walk	Wholers Monument Track	
Ackers Point Scenic Reserve, Ackers Point Track	Ackers Point Track – including night concession	For the night concession refer to Effects Assessment Conforming Track – day walks only
Horseshoe Bay Track	Horseshoe Bay Track	
Rakiura National Park	Garden Mound track from Lee Bay Road to Little River	
Rakiura National Park	Ulva Island – all Walks including: • Post Office - Sydney Cove Loop • Post Office Cove-Boulder Beach-West End-Post Office • Post Office Cove-Flagstaff-Sydney Cove • Track to the Snuggery	Party sizes of different groups to be managed with a maximum of 15 (including guides). This differs from the plan requirements. Note also applying for periodic tours for the more infrequent larger vessels.

Chatham Island

All sites seek the following unless specified otherwise:

Vessel Type	Example Vessel	Indicative Frequency	Max. party size (including guide)	Max visits at each site per day
Smaller expedition vessel	Heritage Explorer	Up to 2 trips per week	15	Up to 3 visits per site per day
Larger expedition vessel	Heritage Adventurer	Periodic Cruises	50	Up to 3-5 visits, depending on party sizes

Please note that land based vehicles may be used to access some of these sites, so the carpark facility may be used. Duration of visit will be 1-4 hours per site unless specified.

The tracks this applies to include:

DOC land parcel name	Track name	Specific Differences
General		
Ocean Mail Scenic Reserve	Ocean Mail Scenic Reserve	
Nikau Bush Conservation Area	Nikau Bush Conservation Area	Conforming Track
Henga Scenic Reserve	Henga Scenic Reserve	Conforming Track
JM Baker/Hapupu National Historic Reserve	JM Baker/Hapupu National Historic Reserve	
Thomas Mohi Tuuta(Rangaika) Scenic Reserve	Thomas Mohi Tuuta(Rangaika) Scenic Reserve	
Tikitiki Hill Conservation Area	Tikitiki Hill Conservation Area	Conforming Track
Pitt Island Ellen Elizabeth Preece Conservation Covenant(Caravan Bush)	Pitt Island Ellen Elizabeth Preece Conservation Covenant(Caravan Bush)	Duration 4-12 hours.
South East Island Nature Reserve	South East Island	This is addressed in the Effects Assessment Duration 4-12 hours.

Fiordland

All sites seek the following unless specified otherwise:

Vessel Type	Example Vessel	Indicative Frequency	Max. party size (including guide)	Max visits at each site per day
Smaller expedition vessel	Heritage Explorer	Up to 2 trips per week	Frontcountry and backcountry – 15 Remote - 9	Up to 3 visits per site per day and in remote 5 trips per day.
Larger expedition vessel	Heritage Adventurer	Periodic Cruises	50	Up to 3-5 visits, depending on party sizes

At some sites some visitors will freedom walk, no guiding required.

It is noted that the sites considered Southern Sounds Historic Sites have varying limits for access. Heritage Expeditions is seeking the following for these sites:

Vessel Type	Example Vessel	Indicative Frequency	Max. party size (including guide)	Max visits at each site per day
Smaller expedition vessel	Heritage Explorer	Up to 2 trips per week	15	Up to 3 visits per site per day
Larger expedition vessel	Heritage Adventurer	Periodic Cruises	50	Up to 3-5 visits, depending on party sizes

At some sites some visitors will freedom walk, no guiding required. The duration of visit per site is 1-4 hours unless specified otherwise. Where facilities other than tracks are used they are noted in 'Specific Differences'.

DOC land parcel name	Track name	Specific Differences
Preservation Inlet		
Fiordland National Park	Puseguyr Point Lighthouse Track	Southern Sounds Historic site Duration 4-12 hours
Fiordland National Park	Sealers Beach track off Lighthouse Track (Wilson River Pack Track)	Southern Sounds Historic site Seeking the 10 groups per day limit as noted in the Fiordland NPMP
Fiordland National Park	Lighthouse Track to Kisbee through Te Oneroa and over to Revolver Bay	Remote Duration 4-12 hours
Fiordland National Park	Te Oneroa mining relics and mine shaft track	Southern Sounds Historic site Seeking the 10 groups per day limit as noted in the Fiordland NPMP
Fiordland National Park	Wilson River Tramway track	Remote Duration 4-12 hours
Fiordland National Park	Kisbee township/Rhododendron Track	Southern Sounds Historic site
Fiordland National Park	Beach down from Cuttle Cove through to Te Oneroa beach near the Spit Islands	For consistency seek same allowances as for Southern Sounds Historic site

Fiordland National Park	Cuttle Cove	For consistency seek same allowances as for Southern Sounds Historic site
Fiordland National Park	Tarawera Sliver Smelter Isthmus Sound	Southern Sounds Historic site Seeking the 10 groups per day limit as noted in the Fiordland NPMP
Fiordland National Park	Top of Isthmus Sound to Jane Cove	Remote
Fiordland National Park	Harries Bay waterfront	Remote
Fiordland National Park	Coal Island day and night concession	Remote. Refer Effects Assessment for nighttime concession request Duration 4-12 hours
Chalky Inlet
