2007	Moehau	Whitianga	25/03/2007		Adult	1		Yes	Dog	Dog predation
					Unknown					We had a wild dog incident in the Waitohi summer of 07/08 that took several months to solve and resulted in the deaths at least 4 kiwi and ~ 80 farm stock. All the birds were found within 150m of each other and could be indicative a major dog kiwi killing episode given the area has or had a strong but unmonitored kiwi population and the time the dog was known to be active in the area. From memory this was 3-5 months.
2007	Waitohi	Te Urewera				4		No	Dog (wandering)	
2007	Mt Manaia	Whangarei	8/05/2007				1	Yes	Suspected dog	suspected dog

2015	Wharau Rd, Kerikeri	Bay of Islands	3/08/2015		Adult	1		No	Dog	Observer saw the bird dead with puncture wounds approx 3 weeks before he rang in on 3/08. Didn't think to call DOC until he heard of other deaths. Three dogs euthanased after investigation, two owners fined for not ensuring dogs were kept within property at night.
2015	Purerua	Bay of Islands	9/09/2015	Male	Adult	1		No	Dog (pet)	Children playing with dog on drive, and dog killed kiwi in pampas. Egg recovered.

2015	Redcliffs Rd Kerikeri	Bay of Islands	12/09/2015			1		No	Dog (wandering)	Observer driving home 2230 hrs aprpx, saw dog with kiwi in mouth followed it for 800 m approx - no doubt was a kiwi. Dog disappeared down a driveway.
2015	Wharau Rd, Kerikeri	Bay of Islands	23/09/2015	Male	Sub-adult		1	No	Suspected dog	Considering recent kiwi deaths in area, probable dog kill
2015	Purerua	Bay of Islands	24/09/2015	Female	Adult		1	No	Suspected dog	Found in paddock next to fence decomposing, some trauma on right thigh
2016	Owhiwa Road	Whangarei	18/01/2016	Female	Adult		1	No	Dog	Found dead on track, wounds to left side of back. Autopsy confirmed
2016	Hodges Bush	Whangarei	2/09/2016	Male	Adult			Yes	Dog	Killed by worker's dog. Dog removed from property. RIP Taonga
2016	Whakatane	Whakatane	17/11/2016				1	Yes	Dog	General observation indicates a dog kill.
2016	Wainui	Whakatane	2/03/2016				1	Yes	Dog (pet)	Found on lawn, dogs present. Caress has lost many feathers and shows extensive bruising and marks.
2016	Ohope	Whakatane	30/06/2016				1	Yes	Dog	Found remains in the native area behind ohope beach school. Was under some large tree branches and covered in mud. Deceased approx 6 days. Obvious dog bite and bruising on body.
2016	Whakatane	Whakatane	14/03/2016		Adult		1	No	Dog (pet)	Found on driveway, 1 puncture wound, very fresh blood.
2016	Whakaangi	Kaitaia	11-May-16	Female	Adult			No	Suspected dog	Suspect kiwi killed by wandering dogs (not confirmed).
2016	Whakaangi	Kaitaia	16-May-16	Male	Adult		1	No	Suspected dog	Suspect kiwi killed by wandering dogs (not confirmed).
2016	Whakaangi	Kaitaia	24-May-16	Female	Adult		1	No	Suspected dog	Suspect kiwi killed by wandering dogs (not confirmed).
2016	Whakaangi	Kaitaia	24-May-16	Male	Adult		1	No	Suspected dog	Suspect kiwi killed by wandering dogs (not confirmed).
2016	Whakaangi	Kaitaia	5-Jul-16	Male	Adult		1	No	Dog (wandering)	Kiwi killed by wandering dogs.
2016	Whakaangi	Kaitaia	5-Jul-16	Male	Adult		1	No	Dog (wandering)	Kiwi killed by wandering dogs.
2016	Whakaangi	Kaitaia	11-Jul-16	Male	Adult		1	No	Dog (wandering)	Kiwi killed by wandering dogs.
2016	Whakaangi	Kaitaia	19-Jul-16		Adult		1	No	Suspected dog	Suspect kiwi killed by wandering dogs (not confirmed).
2016	Whakaangi	Kaitaia	20-Jul-16	Female	Adult		1	No	Suspected dog	Suspect kiwi killed by wandering dogs (not confirmed).
2016	Whakaangi	Kaitaia	27-Jul-16		Adult		1	No	Suspected dog	Suspect kiwi killed by wandering dogs (not confirmed).
2016	Hupara	Bay of Islands	28/01/2016	Female	Adult		1	No	Dog (pet)	Dog killed bird while being walked off lead in the bush on the owners property. The dog had been through avoidance training in Oct 2015.
2016	Puketotara Rd	Bay of Islands	2016	Male	Adult		1	No	Suspected dog	Found in a paddock on the farm
2016	Kuaotunu	Whitianga	2016	Female	Adult		1	No	Dog	Was subject of a court case after a dog predation witnessed and admitted to by the dog owner
2016	Kuaotunu	Whitianga	2016	Female	Adult		1	No	Dog	Was monitored adult male kiwi partner on the proposed Woodcock Forestry Road, approximately 300m from the site Female One (above) was predated. The state of decomposition of this carcass rendered it unsuitable for autopsy, so it can only be suggested it was a dog predation. However the scene in which the carcass was found suggested dog predation.
2017	Kawau Island	Auckland Inner Islands	5-Jul-17				1	No	Dog	Bird Found Dead. Post mortem identified as a dog attack.
2017	Kawau Island	Auckland Inner Islands	6-Jul-17	Male	Sub-adult		1	No	Dog	Bird Found Dead. Post mortem identified as a dog attack.
2017	Kawau Island	Auckland Inner Islands	15-Jul-17				1	No	Dog	Bird Found Dead. Post mortem identified as a dog attack.
2017	Waima Main Range Trac	Kauri Coast	17/01/2017	Male	Adult		1	No	Suspected dog	Kiwi found on track by contractor (who is also a kiwi dog handler) working in area, quite decomposed, suspected dog. Known dog problem in this area, with lost hunting dogs possibly living in the bush
2017	Maungataniwha	Hawkes Bay	31/08/2017	Male			1	Yes	Dog (wandering)	Found dead in private forest, post mortem by Massey confirmed dog attach. 2 dogs seen prior, attempts to shoot not successful. Likely pig hunters dogs from Te Urewera, 1 light bodied cattle dog (collie cross), 1 heavier holder breed (possible mastiff cross)
2017	Maungataniwha	Hawkes Bay	Sep-17	Male			1	Yes	Dog (wandering)	As above
2017	Purua	Whangarei	5/07/2017	Male	Adult		1	Yes	Suspected dog	looks like a dog kill - really decomposed
2017	Purua	Whangarei	7/09/2017				1	No	Dog	No microchip found, dog kill
2017	Mokorua Reserve	Whakatane	20/05/2017				1	Yes	Dog	Found dead in the pines, sent away for autopsy, confirmed dog kill

2017	Otama Valley, Moehau	Whitianga	17/01/2017		Sub-adult	1		Yes	Dog	Feathers, a piece of skin and a transmitter collar from the remains of a kiwi was sent to Ecogene, dog DNA confirmed
2017	Upper Waitaia, Moehau	Whitianga	2017		Sub-adult	1		Yes	Dog	Caught with obvious injuries, sent to vet but later died. Injuries confirmed by vet as consistent with dog attack.
2018	Tongariro Forest	Tongariro	30/08/2018			1		Yes	Dog (pig)	Bird found freshly dead on track, looks to be a dog predation, have sent to Ecogene and Massey Uni for confirmation. Ute seen heading out of forest with 2 x pig dogs on back
2018	Trounson Kauri Park	Kauri Coast	26/06/2018	Female	Adult	1		Yes	Dog	Found by volunteer in Trounson Kauri Park, freshly killed on a baitstation line. Sent to Ecogene and Massey. Dog saliva sample retrieved from body. Post mortem confirmed killed by dog. Female had a metal band put on in 1996 - 23+ years old.
2018	Trounson Kauri Park	Kauri Coast	10/07/2018	Female	Sub-adult	1		No	Dog	Spotted 1.5m off TKP public walking track by concessionaire doing a nightwalk. Estimated that it had probably been dead for a week. Sent to Massey and confirmed dog kill
2018	Trounson Kauri Park	Kauri Coast	2/08/2018		Sub-adult	1		No	Dog	Kiwi dog was run through the bush in light of the recent dog kills at TKP. Found a decomposed dead kiwi, body positioning consistent with dog kill and likely to have been killed around the same time as the other birds that we had found. Pathology report from Massey showed massive trauma and broken bones consistent with a dog attack but body too decomposed for them to be able to categorically state that. The damage to the body (broken ribs, sternum, pelvis and left hind leg) strongly supports dog kill.
2018	Fosters Rd, Tutamoe	Kauri Coast	8/08/2018	Male	Adult	1		No	Dog	Russel was out hunting, his dog found the kiwi and then ran to the burrow where two eggs were found. Kiwi likely dead 3-7 days. All the injuries consistent with dog kill
2018	Whangarei heads	Whangarei	unknown			3		No	Dog	three additional bird found confirmed dog kill this year, but no records in database
2018	Nook Road	Whangarei	19/07/2018			1		No	Dog	Found by observer walking his dogs. Autopsy confirmed dog
2018	Nook Road	Whangarei	19/07/2018			1		No	Dog	Kiwi found in same area as another kiwi found one week prior. Autopsy confirmed dog
2018	Mokorua Reserve	Whakatane	Jun-18		Sub-adult	1		No	Dog (pet)	House sitter let dog out for pee at night and he killed a young juvenile kiwi. Kiwi was in the backyard. Dog not aversion trained. Eight mortalities confirmed since April 2018. DNA testing confirmed five of 8 dead kiwi had dog DNA on them. In some cases the transmitters only were found (i.e. deliberately cut off) with dog DNA found on transmitters.
2018	Port Charles, Moehau	Whitianga	Jul-18	Male	Adult	5		Yes	Dog	Three birds/transmitters found did not have dog DNA present, although it's likely that it's part of the same killing spree where five other bodies/transmitters had confirmed dog DNA.
2018	Port Charles, Moehau	Whitianga	Jul-18	Male	Adult	3		Yes	Suspected dog	Found in well-known area for dog-walkers
2018	Long Beach, Russell	Bay of Islands	8/06/2018	Male	Sub-adult	1		No	Dog	Found dead kiwi on road side by a private driveway.
2018	yn Rd Area, Purerua Pen	Bay of Islands	22/02/2018			1		No	Dog	Found dead kiwi on the same morning as above but on a different driveway.
2018	yn Rd Area, Purerua Pen	Bay of Islands	22/02/2018			1		No	Dog	Found dead kiwi on the same morning as above but at a different property
2018	yn Rd Area, Purerua Pen	Bay of Islands	22/02/2018			1		No	Dog	Found kiwi in the evening of the 22nd on their lawn
2018	yn Rd Area, Purerua Pen	Bay of Islands	23/02/2018			1		No	Dog	One further kiwi handed in found in the same area as the above four kiwi
2018	yn Rd Area, Purerua Pen	Bay of Islands	22/02/2018			1		No	Dog	Found kiwi in evening on driveway
